

DEPARTMENT OF COMPUTER AND  
INFORMATION SCIENCE

August 6, 2021

Dear Sir or Madam:

I am writing this letter to confirm that Ms. Sirine Achour completed a project ("Collect/Connect") working with my research group at the University of Michigan from January to May 2021.

During this period, she developed the frontend, backend and AI judge for a serious game ("Collect/Connect") that encourages players to discover novel relationships among cards representing artifacts housed in several University of Michigan museums. This work included the design and implementation of the database behind the game.

Her work was both innovative and of the very best quality. Sirine's written and oral communication skills are excellent. She is a good programmer and has well developed software engineering skills. She demonstrated that she is very knowledgeable about machine learning and data science.

I am happy to report that Ms. Sirine Achour completed this project in a highly satisfactory manner. Please feel free to contact me if you need any further information regarding Ms. Achour.

Sincerely,

A handwritten signature in black ink that reads 'Bruce Maxim'.

Bruce R. Maxim
